Revocation of Registration R097-15697-00417

Dear Ms. King:

On April 21, 2003, Micronutrients notified the Office of Air Quality (OAQ) and Office of Environmental Services (OES) that the registered equipment located at 1550 Research Way, Indianapolis, Indiana, 46231 has the potential to emit less than permitting thresholds, thus eliminating the need for a registration.

The Registration R097-15697-00417, issued on April 15, 2003, is hereby revoked. Pursuant IC 4-21.5-3-5(a) and (b), this revocation letter is effective in eighteen (18) days from the date of this letter.

Any construction or modification that would result in potential to emit greater than the exemption levels, as specified in 326 IAC 2-1.1-3 (Exemptions) shall be subject to New Source Review (NSR) and must be approved by the OAQ and OES before such construction or modification may occur.

If you have any questions regarding this revocation, please contact Angelique Oliger of my staff at (317) 327-2846.

Sincerely,

Original Signed by John B. Chavez
